

LAW FIRM PROFILE 2026

WELCOME TO INDOLAW

Where noble duty meets the law,
we find our purpose - shaped by experience,
we counsel with wisdom and advocate
with unwavering dedication.

WHO WE ARE

IndoLaw was Founded by Adv. Dr. Tjoetjoe Sandjaja Hernanto, a Senior Advocate with over 35 years of practice and the Honorary Chairman of the Congress of Indonesian Advocates (KAI).

IndoLaw was established as a first-generation law firm structured as a Limited Liability Company (PT). This structure reflects our belief that great legal work demands institutional discipline, not just individual brilliance.

Today, IndoLaw operates from the Penthouse of Sampoerna Strategic Square, South Tower, in the heart of Jakarta's business district — a location that reflects the ambitions of our clients and the calibre of work we do for them.

A modern office interior with a long wooden table, chairs, and plants. The scene is dimly lit with blue tones, featuring a grid ceiling with recessed lights and several pendant lights hanging over the table. A planter box with green plants sits on a cabinet to the left. In the background, a person is visible near a service counter.

OUR APPROACH

We work closely with every client to understand not just their legal problem, but their goals, their context, and what a successful outcome truly means for them. We believe the best legal advice is not the loudest — it is the most considered.

We are trusted by prominent individuals, major corporates, and leading financial institutions — clients who value senior — level attention on every matter. Key long term clients include Sampoerna Strategic group of companies, Danone (Aqua) and Maybank.

Each matter is handled by our team of “legal chefs” — attorneys and specialists who bring precision, care, and deep legal reasoning to every file, ensuring every effort we make on your behalf meets the highest standards of qualification and professionalism.
